

Power game

KURODA International Consulting

Takeshi Kuroda

NATO and, AUKUS, Israel are the reality of trying to cover the world. We have only permission that is an equal condition to face against them.

China as the last emperor, is their last enemy. That who is trying to own the world that we finally know.

This is the truth of the power game. What do they have? Technology and the progress of society that we can find.

Israel as Jewish and WASP as Anglo-Saxon mission is the top of the order to cover the world under the use of their tails.

One thing we have to clear of is that we have only permission to ask for a victory. If we do not, we have to ask for another choice.

Abnormal people can live their dreams, but ordinary people can only live in reality. This is only permission of politics.

If Russia is failed, we have to stand equal to them. We have to be clear about those.

The end of Mr. Putin is starting the nightmare of the world. That is all irony but the truth that we have to know.

And even that means The western camp have all technology and system they have all skills to cover the whole world.

We have to handle, one by one, any change in reality in the world. If we have a right, we must follow and make it a world.
