Under any proposal of unified Asia, we would insist on establishing an independent Palestinian state.

These make recommendations for a ceasefire and the construction of a new reality.

And as we are trying to unify the Asian region, we would invite them to all new realities.

We have all new creations of society and life. All destroyed societies must be rebuilt under new standards as we try to recreate any realities in the Asian region.

Hope is any agreement we may offer. And we are trying our new steps with peace.

These will be submitted to the Palestinian Interim Government as a unified opinion in Asia.
