We are not permitted to follow any information from CNN and Langley, but we need to follow reality. And this is the only permission for us to live in a reality.

Based on all the realities of the world, we first have our decision for the world. And these are the consensus and reality of the world which we can share.

Only then do we have our steps into the International society, which we are trying to make our dialogue.

Any dialogue may be based on any reality of the world. And this is the only possibility that we may reach any agreements.

All choices are permitted under the own volunteers. And each nation has its self and it may only be gathered to make new realities.

These are the arguments that we may find in the future. Under all these ideas, disclosing all information is a way we have with the world.

We may know that not all secret police and agents are tails, but there are the deepest we must face. And all reality is all truth of the world, which we have to work for, and only the possibility we can realize any ideas.

And these are the only realities of the world politics, and we have a way to seek any realities above those.

We may have an idea for a new world, and these are only arguments we are considering any possibilities. And any progress is the only reality we can work with.

If the hope is the only direction, we have only one choice for the future.
