New rules and laws are the reality. We could insist on a new world.

We have our vision for the world. These are the recreation of the world under all our efforts. We are trying to make all our decisions.

New world vision is with conscience and all new responsibilities. With all our decisions, we are standing against all realities and seeking world revolutions.

As citizens of the earth, we are expanding our own human right to recreate the world anew.

Rising all-new ideals against all reality of the world, and we are trying to achieve victory against them.

We have two different realities as we have caused a new one, and we have a proper calculation for the future.

And we have all concerns with the universe. We have our decisions for the world and the future.

And we have a jihad; under justice, we are trying to erase all criminals.

With justice, all crimes must be punished. We only share all ideals.

New technology with a new world and dreams expand to the whole universe.

We step into a new, and the world follows us all.
