Right and wrong in the final war and media control in the CIA divide the world in two. These are conflicts between Anglo-Saxon missions and inhumane states, and justice is awarded to the Western side. But this is the plan for the New World Order.

This separation must be defined as goodness and evil. But we may see all failure with both realities,

That gives us an idea that we may offer 3rd vision and plans.

We must ask for peace and share the future. We are not trying to divide the world by three. But we would gather the whole world.

We are facing world war 3rd, but we can make a decision.

We may not be trying to judge under justice, but we must propose all agreements by their rationale.

This is a proposal and agreement of the new world. We have to see this is a difference of choice of all politics.
