Under the justice of the western camp, Mr. Putin is the villain who ever existed. But how does the world react against him if all information is disclosed?

Under all Western media calculations, there is justice judging Russia and Mr. Putin. But how does the world act against the truth if all information is disclosed?

We need justice to face any reality that may not be a lie. Humanity is the same decision for any being. So all Ukraine matters may be asked under international society with a truth.

How does Mr. Putin is judged if all information is released? That comes with a proper judgment but from any media of Western camp.

All these disclosures are any bases we may seek in the new world and future. If we find all truth about politics in Ukraine, how could we make any decisions?

This is proof that the truth may open the door.

We all need a future that requires the above.

If we may rim a hand in any nationality, we may not follow any lies but truth.

We are equally seeking the future. Who may give you an idea? We may share the same world and future since we face coming realities.

We need college to take the truth. But this is the duty of all politicians.
