

Russia and friend Mr. Putin

Office
of
International Consulting
Kuroda
Takeshi Kuroda

Me. Putin was fooled. The aim was World war 3rd. But it comes too late in all realities. But all occasion was given in the same way in the past. There are all the same. WASPs take all the same patterns. That means we have to be wise. And the plan is all prepared, and we may not be away from it.

I do insist that all history with war is contained with all tears of weak. That is a reality we find in Ukraine as I urge a new world.

Peace is an agreement of dreams. That was an age we spent in the 20th Century that was occurred by the USA.

The international society holds its agreement with humanity. That is an equal decision of the world.

The right decision is calculated by all truth. This is only a permission to make justice.

There is all progress of society and life we may find in the USA. If we ask for a decision, the right decision is to make the same reality as they are.

Peace must deny any invasion, which comes with an agreement and the future.

If we share the world, we must reject the war.

War may not give any decision, but argument. The truth may be all base on conversations.
