Russia is failed. Only after remaining is with China. Western camp must take the whole world.

This power balance must face all justice of the Western camp.

With the economy and military, we face the last moment of history. All these evil game has a winner and loser.

Under the pole by the united nations, AUKUS and NATO must follow. You must know that there is no existence of Quad.

Russia must be forced into its decision. Western camp or China. These are called jihad from the camp of the west.

We may finally reach with tails of plans. How many moments do we have to remain?

Only the permission we are facing with the world is beside with truth.

To be wise, that who is trying to proper the world. That is a who trying to be a king.
