And any wars we may ask but dialogue for all solutions we can propose.

If China invades Taiwan, The war between the U.S. Forces in Japan, the U.S. Forces in South Korea, and China is a reality because of the overwhelming superiority of the United States.

And we have to know choice is always makes a reality. That causes us to be more than wise.

A war without out possibility of victory may not be decided. Then we need to make our decision.

Holding the Far East Asia Conference is the right choice. These call for an agreement on peace and cooperation in the region.

And we have to know we may not stand against all liberal camp as we need to make the right decision.

Any war may not be caused without the possibility of victory.

If all these crises happen, the whole world must make its choice facing with World War 3rs.

Instead, if we raise a new world vision, not with wars, what should be the difference we can find in the world?

Choice only gains any direction of the future. We, Kuroda International Consulting, offer several visions.

Politics can determine the future under its decisions.
