

The decision to the future

KURODA International

Takeshi Kuroda

With starting new world order that is with Israel attack OPEC. We (the Asian union) stayed with OPEC. We are with the African coalition and south America of all nations to ask a majority vote standing against them related with the world government by his justice.

We are standing with any realities by same agreement of whole Asia. This is all bases we are handling by the world.

All these are agreements by Asia and offer our vision to any nation.

There are all necessities we must equally face the world. All cooperations are under our agreement and by visions.

These are bases we are participating in the world, and we dare to build our world and societies.
