Peace permits all dreams, but war steals them all. These are the realities we have in Ukraine and the Gaza Strip today.

Earth's history is filled with wars and tragedies, but we have a choice in the future.

On the one hand, there is all the wealth and glory of victory. That is all the story we face on TV today.

But on the other hand, there is unlimited tragedy, pain, suffering, and sorrow.

These are the two different descriptions of the wars. These are both truths. However, as we can see in Ukraine and the Gaza Strip, the latter reality may be correct.

So we have a choice: to Abolish war in the world.

We have to ask all the people about these delicious. They have their answers.

If we make all decisions with the world, what is the gift we find in the world?

Wars are the conflict. So we could reach unification of the ground. And what is after that? We expand ourselves into the universe in the future of eternity.

These are the truths we find for our answer. Then what is the difficulty? America's military-industrial complex.

All these are not any humor. But we find all the truth of the world.
