Illuminati seeks the new world system. That is the new money system. Since they made the world control with their capitals.

This money system is from the Protocols of Zion. And you may find the word with Zion that is from the bible.

But their money system must have exploitation. This must be all remarks. If we could build fair money systems as an economy, how the world reacts against them?

There must be a way we may seek our world. As we need a final decision, it is called the military.

This must be an idea for the world's reality, not from the media but from the world itself.

Their new money system is all bases as they build a world under economic systems. But the decision may not be under the economy. It only comes with the use of itself.

But all mega companies have a creation of the future. But we may know who possesses them all. These are creations of the new world.

If we have a chance to seek our world, The economy could escape from them, and we may find light in our money system.

If we build under our reality, how may the reaction be from the world? And what we can find in all changes.

The fable of the North Wind and the Sun could gather the world, which means we may take a planet.
