Russia has himself with a tail of the nuclear weapon. That is one reason the world may not ask its action. And the other is the world step different dreams.

This Ukraine matter is extraordinary. The world never sends its army forces.

Under all reality, any justice comes with an illusion.

All these realities are suitable proof that the world is forwarding different ways.

The world ignores any voice of Ukraine under their humanity. All these realities must change the world.

There must be all strange with United Nations that they do not ask their justice.

All these realities prove that if we rise with our philosophy and ideals, the world could ask different choices.
