

The world is divided into two.

Kuroda International

Takeshi Kuroda

Russia and his group are standing against the Western camp. The invasion of Ukraine causes these realities.

These realities may show two different worlds. These insist on different values and different directions.

They both have a tail with a nuclear weapon and their army force. We wonder the World War 3<sup>rd</sup>.

But we are trying to be wise that there are all tails of the world called new world order.

We only are permitted with all reality with a new circulation of the world.

There is all curiosity that we are facing, and there must be any mistakes in a plan that are called new world order.

We Kuroda International propose 3<sup>rd</sup> decision from both realities that we are sending all new message to reality.

These are not with conflict but share a new world and peace. We insist on new systems of the world and even the future.
