

The world of its decision by Ukraine

KURODA International

The world representatives are waiting for the invasion of Russia to Ukraine. They are seeking World War 3 with their prize for the future.

Waiting for all their future that millennium is planned.

This is the truth of free camp.

Russia is only trapped by.

All these ways are as same as any wars of modern history.

All peoples follow their justice, but the CIA station only controls this.

This is a world today where we are making all its celebrations.

That is proof that all weak must only ask for their tears.

That is a reality of people in Ukraine.

This trick is social control of publicity. This is called justice.

Who is following them, and who is taking control?

As we can see, Jesus Crist has been invited from Satan. That comes as same as it is.

We could stand with our justice against their justice.
