

To gather the world

March 14th, 2026

KURODA International Consulting LLC

Takeshi Kuroda

Dialogue is a tool we may gather the world. And we may reach an answer and share the same world and the future.

Redesigning all reality, we may have new hopes under new world systems and realities. These are recreations of the world using progressive technology and systems.

These are the results of all arguments by any intelligence in the world. New cooperation may find unification of the realities. And these are the visions of the future.

We may reach the end. It may be the beginning of eternal futures. And these are caused by all the dialogues that must find an answer.

We may and can build paradise here on the ground of the earth. These are the choices we are willing to make.

And all agreements allow us all new possibilities to build a new world. A wise man always makes a wise choice. These are how we may reach the future.

The future is in the hands of all new talents. They have their hopes, and they may realize them by the world itself.

At this point in time, not all dreams may be illusions, but reality itself. Because we have capital and technologies, and expand all our realities to the whole universe.

These are the proper ways for us to catch the world and the moment. We dare to realize all new futures.
