Through dialogue, we may find a way to the future. And we may argue new ideas to make the world new.

These are with an agreement that we agree on the new world. Any progress of the era proposes to redesign the world under its possibilities.

We are in touch with the new space age, and there is a possibility that we will have new contact with space.

And any reality must occur from any politics. Under its consensus, we have a new dialogue that may share new futures.

All new talent may propose the future based on their evolving knowledge.

We have all new shift from the past to the future. And any progress possibly gives us a new world itself.

To reach a new consensus that is the new future with all new cooperation. And dialogue makes it possible with a world.

Instead of all we have is the reality of the world today. But these are the different directions under the new agreement of the world which we are trying to propose.

If world politics may find new ideas that we all can share, these are the new designs of the world.

As such, all the above, we may consider and argue new world systems which we all can a
