The seeds of new conflict invite the creation of a new world that will involve the world as a whole and ultimately make a choice about the world.

Peace may base the new world under its agreement of nations. Agreement is the basis we may ask for in the future.

If a unified Asia can come to an agreement on peace and propose the sharing of basic living conditions if we can propose peace to the conflicts in Ukraine, Gaza, and the Middle East, and propose the construction of a new society where these basic living conditions are shared, what kind of changes can we propose to the world?

All these are the ideas of the unification of Eurasia land and the unification of the Asian union, which is the basis of the new world.

The September UN General Assembly will surely be the last opportunity, so it will be possible to propose a new world framework through discussion.

We are trying to take on a new responsibility for the world. Here are all our ideas. We can't ignore any suffering and pain of all Friends of the Earth.

Together with our friends on the same ark, we set out today into the eternal future and the infinite universe—the demands of a new world.

The only mission given to politics is to create a world in which no one is left behind and in which all citizens of the Earth depart for the infinite future with good memories, not bad ones. All new agreements could be a new decision for the world and the future. We sincerely and honestly send any designs and ideas.

Then you have all your decisions. We are so pleased to spend time with you and the world.
