

Under New world order of reality

Kuroda International Foundation

Takeshi Kuroda

As plan forwarding to world government and millennium, we could ask our futures. All politics is under control by illuminati.

We may ask any contact with space and seek any possibilities. That we are trying to make equal reality as theirs.

Expanding with new vision we are trying to gather the world.

Any possibility to make any conversations that the world must be shared by all.

If unification of Korea gives any ideas as unification of the world, that South Korea is under effect of illuminati and North with standing against.

Even we may try with United Nations that any conversations and permanent council, moon bases of theirs.

These are the effort only allowed with us all.

That trying to be wise we are not seeking conflict but peace.
