

United Nations General Assembly

September 18th, 2024

KURODA International Consulting

Takeshi Kuroda

This is our last opportunity to disclose the truth to the world. We are in front of the media to inform the world about reality.

These are the beginning of the world revolution. And it is imperative that many must follow and support all our visions. We need your help, your commitment, your support.

All our efforts are aimed at creating a comprehensive understanding and connection with the universe. We need a large number of individuals to join us in this endeavor.

If we take any vote in an open conference, the world must change itself.

This is done as a legitimate action under the UN Charter and international law.

We may see that we throw new stones into the lake, which causes a seed to make a new future.
