All nation could face their nationalism to ask for all conflict in coming realities. On the other hand, We propose a new world of harmony.

We may imagine that war will become a reality in the future. Nationalism is an all-tail. They may ask for any conflict.

That means we have to be away from any nationalism and have to seek unification of the world.

We can find love and hatred, but we must choose love for the future.

Divided of self is all from new nationalism. As we see, there is the New World Order, but all peoples know any realities. And they could make all their decisions.

There must be two ways we could seek a future—nationalism, and unification of the world.

We need a future. That is all answers we are required to have. That causes us to make a decision. Since we have all truth of the world.

We need to know that the decision is a reality that we determine in our minds.

As we are trying to create a new world. We find that decision is only a reality we caused.

How may we design the world? That is all proposal from our office to the world.

There is all difficulty in the world, even asking for a step. But you must remind what I said. We are moving all our army forces to all reality of the world.
