We have all truth of the world. That who gives a direction with its invasion that we must know any fact based on reality.

Then we could judge all things under laws and humanity. That is only the right decision for the world.

We have justice to judge the world. Any crimes must be denied.

If we should disclose all information that is all these must be from the CIA or Mossad, we have the right decision with the world.

Media and social consequences yell their justice, but with the truth, we have the proper judgment.

We have an all government and United Nations, but with all truth, we have the right decision.

These are the right attitude for facing the invasion of Ukraine.

Humanity is all common; we can share all decisions with any realities of the world.

Mr. Zelenski and Putin must be judged under all information disclosed by all national representatives.
