All military of any nation should be gathered in World War 3. How could we expect its result? Let me explain any forecast.

First, we find NATO. They would ask for an Anglo-Saxon mission. And they have their justice with media control.

On the other hand, there are few who stand against them. Russia, China and Iran.

We would find a few truths by asking for any calculations under new technologies. The wars are standing each other with their technologies.

And any nation must follow all these realities with its participation.

Space weapons have a use today with their technologies. And there are a number of nuclear weapons.

Diplomacy decides the world under its power balance. If justice benefits all, how can the world reflect against it?

Power and diplomacy decide the world. This is all remark we need to act ourselves as far as we can try our efforts.

Tomorrow never knows.
