These are the world-building and permanent establishments of white supremacy.

Therefore, the invasion of Ukraine was ordered, and it is clear that there is an intention to seek the weakening of the military power of the Russian army. The same is true for the Taiwan issue.

These realities are solid, and their new world vision calls for establishing a new world government in the economy, money system, and world order.

With public opinion manipulation in the media, there is no way in the future.

The only way is the construction of a self-reality on par with them because it allows only equality.

This presents its world vision against these realities, and in forming their group, unify the military, standardize the economic system, build a unified money system, and build a reality of cooperation with the universe. This is what we propose.

We have a choice for the future as we propose any ideas from our office.

In terms of practicality, I would like to propose that space technology, which has been kept hidden, should be clearly presented and confronted with reality.

Then we must recalculate the world. As I could ask you, what can you see in the future?

We may see under all use of these technologies in a new nation and society as lives.

We have hope that we may not be away from it.
